Electric Supply Change Application Requirements

Items to be submitted with Electric Supply Change Application:

1. _____ Plan view of Unit showing existing location of Electric Supply.
Also please show the number of the Units located on each side of your unit.
2. _____ Description of proposed change to the Electric Supply.
3. _____ If contractor installed submit a set of contractors drawings and specifications of the change.
4. _____ If doing it yourself submit a detailed drawing of the change that lists all material being used to make the change.

Notes:

1. All of the above items must be submitted with the application or it will be rejected.
2. This application requires an Orange County Permit and the County issued permit must be presented to the Office before work can be started.
3. All electrical services that are fed by overhead lines to a weather head and attached to a wooden pole or any other support for that service are the unit owner or owner's responsibility. To clarify; unit owner or owners are responsible for the support of the electrical service and all boxes, breakers receptacles etc. and the wiring up to the weather head.

All Pedestal services (fed by underground lines) are the unit owner's responsibility. Clarcona Resort is responsible to supply available power to the meter head.
